| Study Program: GEOGRAPHY | | | |
| Type and level of studies: Bachelor studies | | | |
| Course name: ANTHROPOGEOGRAPHY | | | |
| Lecturer: Saša Milosavljević | | | |
| Status: Compulsory subject | | | |
| ECTS: 8 | | | |
| Attendance prerequisites: | | | |
| Course aims | | | |
| The aim of the course is for the students to grasp the complex spatial relations between man, society and nature. The focus of the study is understanding and explaining the spatio-temporal interdependencies between man (society) and the geographical environment. At the same time, explanations for the action of relevant factors are provided; these are primarily the natural factors, followed by economic, political, social and other factors. The students should acquire basic knowledge about the role of man in shaping and changing geospatial reality. | | | |
| Course outcome | | | |
| Course content | | | |
| <i>Theoretical part</i> | | | |
| Theoretical - methodological basis of traditional and modern anthropogeography, Jovan Cvijić and the Serbian school of anthropogeography, Physical anthropogeography, Economic and cultural basis of human geography, Social and political basis of human geography. | | | |
| <i>Practical part</i> | | | |
| Field research methods in anthropogeography. Forms of indoor work in anthropogeography. Working on teaching topics through specific tasks (mostly through examples related to Serbia). Calculation of certain indicators, drawing graphical representations, analysis and interpretation of data. The focus is on the professional and methodological-didactic application of graphic and other methods in anthropogeography. | | | |
